I was 12.
I had an I.Q. of 156 was in Gifted Classes then was planning on skipping two grades back.
Then I had a form of autism which is now known as Asperger's. Scouts had structure.
It was the only real commitment I had of other kids. In school I did not fit in.

In order of this arrow it all's secrecy and ritual allowed this monster to do these things to me.

After I quit Scouts I quit school attempted suicide then ran away from home.
Since then my life has been institutionalization, addiction, homelessness.
I do NOT blame Ma.

For these things the decision I made were my own.

However, I see the brain as a biological computer and the things we did to me implanted a virus into my brain.
I didn't grow up to be a child molester or a Rapist, but I did steal.
1. I self-harmed. I am a big time cutter and suffer severe depression. I lowered my self-esteem and caused me to question my own sexuality (I was straight).

My life was on a good trajectory until M.K.

There are a couple guys in here who tried to get in this lawsuit. They were not accepted. My claims have been validated.

This man ruined my mind. My mind ruined my life.
